SUMMARY

Frontend Developer with 2+ years of experience building and optimizing production-grade React/TypeScript applications for a large-scale SSR e-commerce platform. Skilled in Redux Toolkit, REST API integration, reusable component architecture, and performance optimization (Core Web Vitals). Proven track record of independently diagnosing and resolving complex rendering, state-management, and third-party integration issues in an Agile/Scrum environment.

EXPERIENCE

Front End Developer **Oct 2024 – Present**
Good Earth Design Studio Pvt. Ltd. *Delhi*

- Develop and maintain **goodearth.in**, a production-level e-commerce platform, using React.js, Redux Toolkit, and TypeScript within a server-side-rendered architecture.
- Drove a Core Web Vitals optimization initiative, diagnosing render-blocking fonts, a misconfigured service worker, and slow third-party scripts to improve LCP and reduce Total Blocking Time.
- Built and maintained reusable UI components, including multi-select PLP filters, PDP size/variant selectors, and accessible dropdown menus, improving development speed and code consistency.
- Developed a careers module end-to-end, including SSR meta tags for social sharing, Google Analytics event tracking, and mobile-responsive UI.
- Implemented secure form submission flows with field-level encryption and resilient error handling for backend API integrations.
- Integrated multiple REST APIs and managed complex application state using Redux Toolkit, ensuring seamless UX across desktop, tablet, and mobile.
- Collaborated closely with designers, backend engineers, and QA in an Agile/Scrum environment, participating in sprint planning, code reviews, and bug triage.

SKILLS

- **Web Technologies:** HTML, CSS (SCSS), Tailwind, JavaScript, TypeScript, React, Redux Toolkit, React Router.
- **Backend & Tooling:** Node.js, Webpack, Git, GitHub, Bitbucket.
- **Performance:** Core Web Vitals optimization, Lighthouse/PageSpeed auditing, lazy loading, bundle analysis.
- **Programming Languages:** Java, C, OOPs, SQL.
- **Databases:** MySQL.
- **Developer Tools:** VS Code, Git, GitHub, Bitbucket.

PROJECTS

Sunshine Logistics – Business Website (slservices.in)

- Developed a responsive business website for a logistics company using modern web technologies, focused on usability and performance.
- Built clean, reusable UI components to accelerate future feature development.

Notebook – Assignment Management *(HTML, CSS, JavaScript, Bootstrap, Node.js, MySQL)*

- Built a streamlined assignment management system with role-based access control for enhanced data security.

Blogmania – Content Management System

- Designed and developed a CMS with authentication and a user-friendly editor for writing and publishing blog posts.

INTERNSHIP

Python Programming Intern
SLOGSolution Private Ltd.

EDUCATION

Dev Bhoomi Institute of Technology (UTU) **2021 – 2024**
B.Tech in Computer Science & Engineering *Dehradun, Uttarakhand*

Govt. Polytechnic Dwarahat Almora (UBTER) **2018 – 2021**
Diploma in Computer Science & Engineering *Almora, Uttarakhand*

CERTIFICATIONS & ACHIEVEMENTS

- **3rd Position** in Lakshagriha Hackathon 2.0, organized by Dev Bhoomi Uttarakhand University.
- **Python Fundamentals & Programming** certification by Nasscom.
